## Parts Flat Rate (PFR)

**The right  
solution for  
your ATM fleet!**

# SPL Parts Flat Rate (PFR)

---

## SPL makes ATM maintenance faster & easier

The SPL Parts Flat Rate (PFR) is a customized solution for ATM fleets where service companies pay a flat rate per machine per month. The flat fee covers parts and service support for all ATM components defined within the contract:

- Monthly base price for parts and modules per machine
- SPL will replenish and repair or exchange parts consumed

Which ATM models are included will be defined within the contract, as well as the quantity of the machines. Together with our clients, we analyze the parts stock needed.

### Your benefits:

- Reduce the costs of spare parts
- Pay a monthly fixed rate
- Control your costs
- Simplify the ordering procedure
- Get maximum availability of spare parts by minimum effort

# SPL Parts Flat Rate (PFR)

## SPL PFR process:

### Parts Flat Rate starts

- SPL will prepare external parts stock

### Parts received

- Distribution of parts
- If ATM failure occur, use parts from stock

### Fill up stock level

- SPL will prepare repaired or exchanged parts for return

### Select parts for return

- Defective parts can be packed in the same box for return
- Mark used parts with error findings

### End of month

- Pack shipment for export to SPL
- Our logistics can organize the pick-up

### Send information

- Send information about which parts were used for which ATM to SPL

The SPL PFR can be customized and tailored to your demands.

Contract lengths and rates will vary depending on the type, model and configuration of the equipment covered under contract.
